Neeraj Bhatt

Graphic Designer & Product Researcher

Graphic designer who researches before designing. I study users, competitors, and search data to decide what to build, then design it. I put that into practice by building SmartCV Builders from scratch, owning brand, UX, web, and SEO.

Work Experience

- **Founder & Lead Designer**
  SmartCV Builders (2026 – Present)
  - Launched a CV builder end to end: brand, product, UX, website, and career content.
  - Grew search presence from zero to 7K+ impressions in 6 months, with the latest quarter delivering ~3x the visibility of the one before.
  - Designed CV templates with palettes built from color theory, so CVs feel confident and human, not corporate.
  - Built a design system of reusable components to keep every touchpoint consistent.
- **Graphic Designer**
  Sadiksha Overseas (Jul – Nov 2025)
  Produced campaigns for overseas education and recruitment across social, digital, and print, keeping one brand voice across every channel.
- **Graphic Designer**
  Technergy (May – Jul 2025)
  Delivered social, UI, and promotional assets for live marketing campaigns, working closely with the team.
- **Graphic Design Intern**
  Prama Media (Feb – May 2024)
  Supported branding, advertising, and social projects for real clients, for print and digital.

Education

BSc (Hons) Multimedia
Islington College, 2021 – 2024

Advanced Color Theory
Coursera, 2024
